## LASER SHUTTLE TABLE

VENTIS | ENSIS | REGIUS | ORSUS

The LST II E is a 100% electric pallet changer that features an innovative cutting pallet circulation that is unique to AMADA - the cutting pallet circulation works in such a way that the uncut sheet is always on top - ensuring that debris from the cut sheet will never fall onto the uncut one.

The LST II E is designed with quick installation and user friendliness in mind. The optional free bearing table (FBT) ensures effortless and exact positioning of material onto the cutting pallets.
