

LINE LASER

FOR ASF 3015 EU, ASF II 3015 EU, CS II

Growing Together with Our Customers

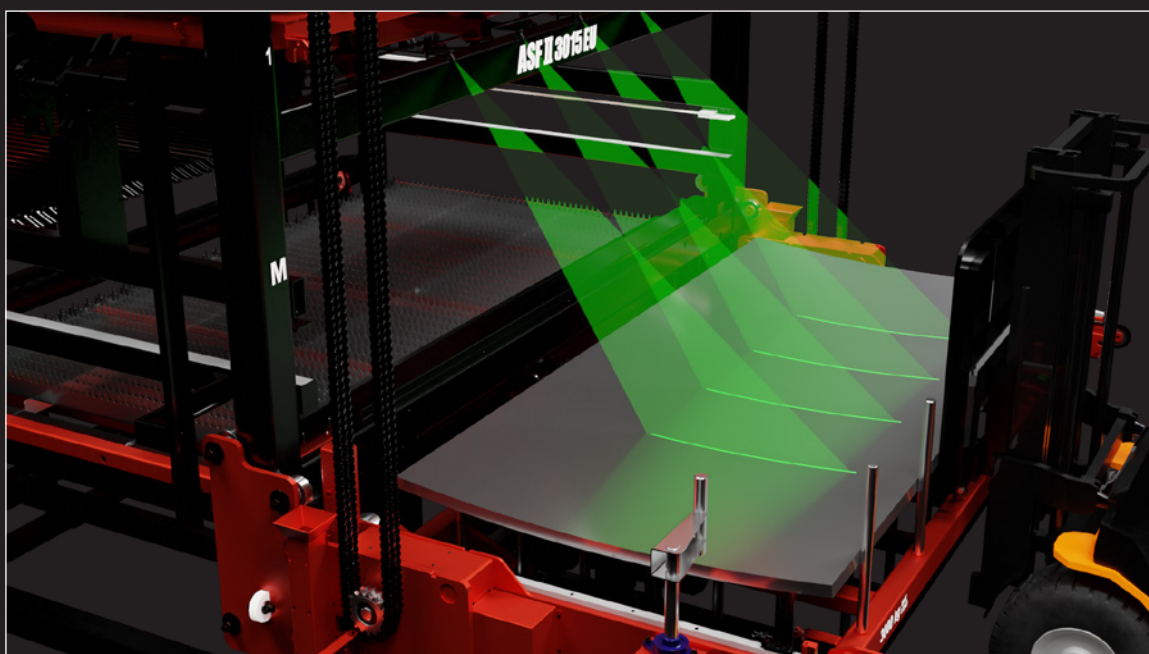

LINE LASER ENSURES RELIABLE LOADING OF MATERIAL

When material is loaded onto the material pallets on automation machines, the stack is typically placed onto a pin table by a forklift – and sometimes, the forklift prongs will hit and damage the pins, causing unnecessary delays.

To help the operator manoeuvre the material safely into place we can supply a line laser kit that highlights the position of the pins, making them easier to avoid.

The line laser kit is available for ASF towers and for CS II and can be equipped either as factory option or as retrofit to existing machinery. Installation and adjustment is easy, as the laser units are attached to the machine using magnets.

For more on safe and efficient material handling – check out our innovative SAYA solution!

Line laser

TECHNICAL SPECIFICATIONS

Line Laser		
Number of laser units	pcs	3 - 4 ¹⁾
Compatible with		ASF 3015 EU, ASF II 3015 EU, CS II 300

¹⁾ Depending on application, 4pcs on ASF/ASFII

Article code: A14729 (ASF, ASF II) - A14702 (CS II)

When using this product, appropriate hazard prevention measures must be used.
